

Three Spires Vasectomy Service Patient Feedback 2024

Patient comments;

The Doctor and nurse were amazing. Fantastic patient engagement which made me much more at ease. I am hugely grateful to both if this could be passed on please. An absolute credit to the medical profession.

Great team - good professional job done.

Very much pleasantly surprised with how the procedure went and the lack of pain/discomfort after.

Staff were lovely and made me as comfortable as possible, despite feelings of insecurity and unexpected level of pain during procedure. Six days since procedure, I have developed an UTI and is being treated by local doctor with amoxicillin and may or may not be related to procedure.

Only reason pain wasn't as expected was because the anaesthetic stopped working even after 3 injections on 1 side, but they did try to help as much as possible.

The staff were great, really put me at ease and explained what was going on very well. Receiving the pre-op and aftercare notes and instructions as links to web resources was really helpful as it meant I did not worry about forgetting anything.

Very good level of care, the team were excellent. Thank you.

The medical personnel were brilliant! Kept me at ease from start to finish.

I thought it was all very professional.

Nice people soft hands. Helped through quite a personal thing very well thanks.

The team performing the procedure were brilliant.

Very good. Delightful staff.

The Medical staff were very professional & had an exceptional bed side manner (definitely no Doc Martin). The clinic was very clean.

Thanks to the team. They were friendly, professional, and efficient.

I was very impressed with the professional and friendly nature of the service. I was put at ease and felt able to ask questions. I felt safe and in good hands.
